

Dropseed Hills North Planting No. 105 – November 1, 2012
Mary and Jim Vieregg

Site conditions:

Location: Section 10, T22N, R10E, 4th PM
Ogle County, Illinois

Roughly trapezoidal 4 acre parcel east of the 2008 planting and north of the Dropseed Hills remnant unit and the crew planting adjacent to it (see attached map). At the time of this planting, it is separated from the 2008 Dropseed North planting by a former fence line area. The fence and most trees have been removed, but the area is still being treated for invasive species. The area south of the planting is also former fence line being managed for invasive species. It is hoped that this cumulative 2 acre area of fence line (both west and south of the planting) will be planted with prairie species in 2013.

- Soils: There are two soil types represented in the planting. They are very similar to each other both being formed in loamy or silty materials and in underlying calcareous sandy or gravelly outwash. They differ primarily because the Warsaw soil has a clay horizon; the Waukeee loam does not.
- 1) Waukeee loam (727B) – a well drained soil found on the shoulders of outwash plains constitutes the southern two-thirds of the planting
 - 2) Warsaw loam (290B) – a well drained soil type also found on the shoulders and summits of outwash plains constitutes the northern one-third of the planting

Topographic features:

There is a waterway entering the planting area from the southeast that makes the southern end of the planting area generally wetter than the rest of the planting. There has been, though, some erosion along the southern former fence line that diverts some of the water into a low area in the unplanted fence line area. Generally, the entire planting acreage slopes very gently downward from the east to the west toward Clear Creek.

Agricultural history:

Aerial photos and farmer anecdote suggest that the area has been used for row crops for many decades.

Site preparation:

The last crop on the site was soybeans (2012). The beans were harvested early in October. After harrowing a small area which created large

tufts of plant debris, the decision was made to seed directly onto the harvested field without further preparation. The tufts of plant debris created by the harrowing were removed so that better soil contact could be achieved in the harrowed area. The soybean debris remaining after harvesting was not so thick in the rest of the field that good soil contact could not occur. Additionally, our thinking was that the remaining debris would act as a light mulch to prevent wind and water from carrying the planted seed very far.

Seed planting:

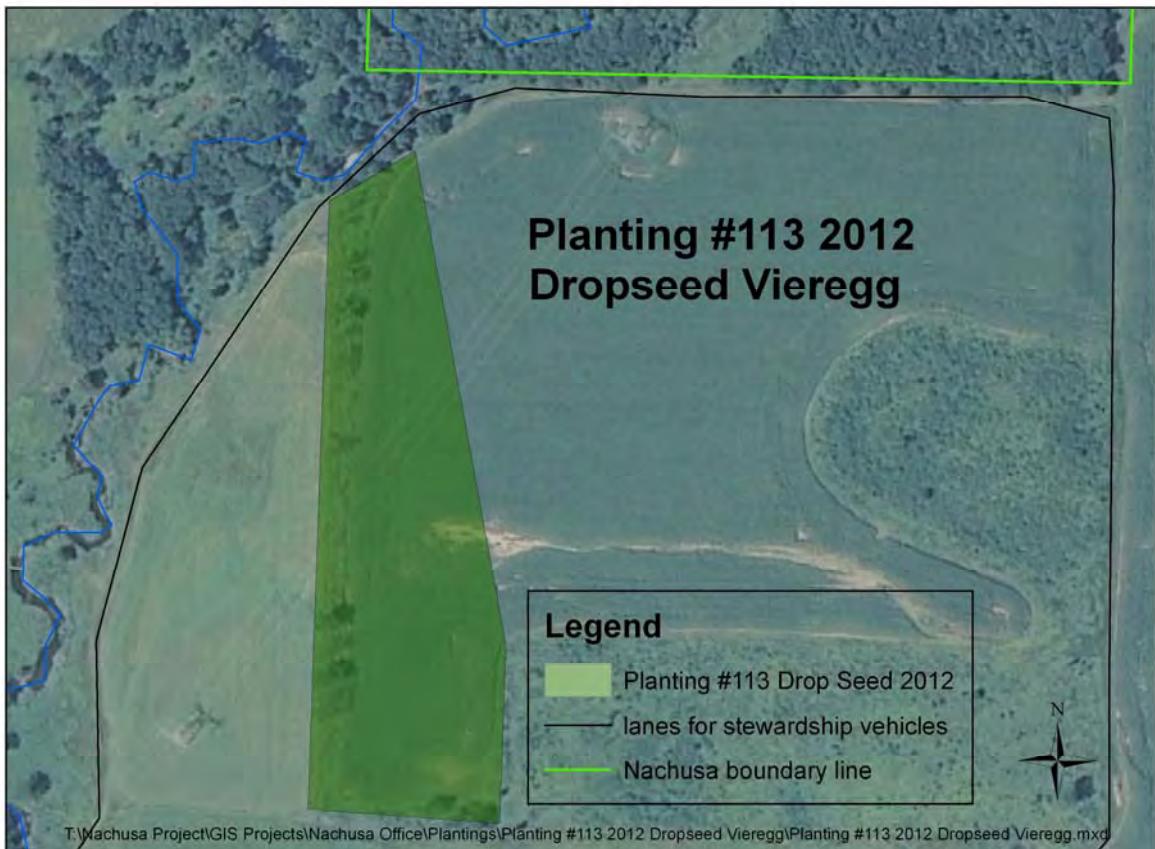

The seed was planted using a McCormack drop seeder pulled by a lightweight pickup truck. No foam marker was used. Overlapping passes were made in two general areas to maximize diversity of species. A wet/mesic mix was planted in the southern part of the planting; a dry/mesic mix was planted in the northern part of the planting. No carrier was used with the seed.

All of the planting work was done by Mary and Jim Vieregg., volunteer stewards.

Seed list:

200 pounds of bulk seed of 137 species were planted on the site. The species list is attached. Species were distributed in two overlapping mixes according to what we think we know about their habitat preferences: dry/mesic, and wet/mesic. Separate weights for each mix were not determined, but the quantities were generally proportional to the sizes of the areas seeded. The average per acre seed weight was 50 pounds.

Map: See below.

<u>Common name</u>	<u>Scientific name</u>	<u>Weight</u>
Wingstem	<i>Actinomeris alternifolia</i>	
Purple gerardia	<i>Agalinis purpurea</i>	
Tall agrimony	<i>Agrimonia gryposepala</i>	
Swamp agrimony	<i>Agrimonia parviflora</i>	
Nodding wild onion	<i>Allium cernuum</i>	
Leadplant	<i>Amorpha canescens</i>	
Indigo bush	<i>Amorpha fruticosa</i>	
Little bluestem	<i>Andropogon scoparius</i>	
Thimbleweed	<i>Anemone cylindrica</i>	
Field cat's foot	<i>Antennaria neglecta</i>	
Pussytoes	<i>Antennaria plantaginifolia</i>	
Arrow feather*	<i>Aristida purpurascens</i>	
Beach wormwood	<i>Artemisia caudata</i>	
Whorled milkweed	<i>Asclepias verticillata</i>	
Sky-blue aster	<i>Aster azureus</i>	
Heather aster	<i>Aster ericoides</i>	
Smooth blue aster	<i>Aster laevis</i>	
Flax-leaved aster*	<i>Aster linariifolius</i>	
New England aster	<i>Aster novae-angliae</i>	
Aromatic aster*	<i>Aster oblongifolius</i>	
Hairy aster	<i>Aster pilosus</i>	
White aster	<i>Aster ptarmicoides</i>	
Swamp aster	<i>Aster puniceus</i>	
Silky aster	<i>Aster sericeus</i>	
Flat-topped aster	<i>Aster umbellatus</i>	
Canadian milk vetch	<i>Astragalus canadensis</i>	
White wild indigo	<i>Baptisia leucantha</i>	
Cream wild indigo	<i>Baptisia leucophaea</i>	
Sideoats grama	<i>Bouteloua curipendula</i>	
Hairy grama*	<i>Bouteloua hirsuta</i>	
Pale Indian plantain	<i>Cacalia atriplicifolia</i>	
Large yellow fox sedge	<i>Carex annectans</i>	
Copper-shouldered oval sedge	<i>Carex bicknellii</i>	
Bristly sedge	<i>Carex comosa</i>	
Long-awned bracted sedge	<i>Carex gravida</i>	
Porcupine sedge	<i>Carex hystericina</i>	
Sand bracted sedge	<i>Carex mulenbergii</i>	
Common oak sedge	<i>Carex pennsylvanica</i>	
Awl-fruited oval sedge	<i>Carex tribuloides</i>	
White-haired panic grass	<i>Carex villosissimum</i>	
Brown fox sedge	<i>Carex vulpinoides</i>	
Wild senna	<i>Cassia hebecarpa</i>	
Downy yellow painted cup	<i>Castilleja sessiflora</i>	
New Jersey tea	<i>Ceanothus americanus</i>	
Golden prairie aster	<i>Chrysopsis camporum</i>	
False toadflax	<i>Comandra umbellata</i>	
Sand coreopsis	<i>Coreopsis lanceolata</i>	
Prairie coreopsis	<i>Coreopsis palmata</i>	
Tall coreopsis	<i>Coreopsis tripteris</i>	
Slender sand sedge	<i>Cyperus filiculmis</i>	
Poverty oat grass	<i>Danthonia spicata</i>	

<u>Common name</u>	<u>Scientific name</u>	<u>Weight</u>
Illinois bundleflower	<i>Desmanthes illinoense</i>	
Showy tick trefoil	<i>Desmodium canadense</i>	
Illinois tick trefoil	<i>Desmodium illinoense</i>	
Shooting star*	<i>Dodecatheon meadia</i>	
Pale purple coneflower	<i>Echinacea pallida</i>	
Prairie wild rye	<i>Elymus canadensis</i>	
Virgina wild rye	<i>Elymus virginicus</i>	
Cinnamon willow herb	<i>Epilobium coloratum</i>	
Scouring rush	<i>Equisetum equimale</i>	
Rattlesnake master	<i>Eryngium yuccifolium</i>	
Tall boneset	<i>Eupatorium altissimum</i>	
Spotted Joe pye weed	<i>Eupatorium maculatum</i>	
Boneset	<i>Eupatorium perfoliatum</i>	
Upland boneset	<i>Eupatorium sessilifolium</i>	
Flowering spurge	<i>Euphorbia corollata</i>	
Biennial gaura	<i>Gaura biennis</i>	
Bottle gentian	<i>Gentiana andrewsii</i>	
Fringed gentian	<i>Gentiana crinita</i>	
Prairie smoke	<i>Geum triflorum</i>	
Sweet everlasting	<i>Gnaphalium obtusifolium</i>	
Sneezeweed	<i>Helenium autumnale</i>	
Pale sunflower*	<i>Helianthus decapetalus</i>	
Western sunflower	<i>Helianthus occidentalis</i>	
Prairie sunflower	<i>Helianthus rigidus</i>	
False sunflower	<i>Heliopsis helianthoides</i>	
Alumroot	<i>Heuchera richardsonii</i>	
Hairy hawkweed	<i>Hieracium gronovii</i>	
Bottlebrush grass	<i>Hystrix patula</i>	
Common rush	<i>Juncus effusus solutus</i>	
Greene's rush	<i>Juncus greenei</i>	
Inland rush	<i>Juncus interior</i>	
Torrey's rush	<i>Juncus torreyi</i>	
Prairie June grass	<i>Koeleria cristata</i>	
False dandelion	<i>Krigia biflora</i>	
False boneset	<i>Kuhnia eupatoroides</i>	
Blue lettuce	<i>Lactuca floridana</i>	
Slender leaved pinweed	<i>Lechea tenuifolia</i>	
Round-headed bush clover	<i>Lespedeza capitata</i>	
Rough blazing star	<i>Liatris aspera</i>	
Tall gayfeather	<i>Liatris pycnostachya</i>	
Grooved yellow flax	<i>Linum sulcatum</i>	
Wild lupine	<i>Lupinus perennis</i>	
Wild bergamot	<i>Monarda fistulosa</i>	
Horse mint	<i>Monarda punctata</i>	
Prairie panic grass	<i>Panicum leibergii</i>	
Scribner's panic grass	<i>Panicum oligosanthes scribneria</i>	
Long-stalked panic grass	<i>Panicum perlongum</i>	
White-haired panic grass	<i>Panicum villosissimum</i>	
Prairie switch grass	<i>Panicum virgatum</i>	
Wild quinine	<i>Parthenium integrifolium</i>	
Wood betony	<i>Pedicularis canadensis</i>	

<u>Common name</u>	<u>Scientific name</u>	<u>Weight</u>
Foxglove beardtongue	<i>Penstemon digitalis</i>	
Hairy beard tongue	<i>Penstemon hirsutus</i>	
Pale beard tongue	<i>Penstemon pallidus</i>	
White prairie clover	<i>Petalostemum candida</i>	
Purple prairie clover	<i>Petalostemum purpureum</i>	
Purple milkwort	<i>Polygala polygama</i>	
Prairie cinquefoil	<i>Potentilla arguta</i>	
Wild plum*	<i>Prunus americana</i>	
Slender mountain mint	<i>Pycnanthemum tenuifolium</i>	
Mountain mint	<i>Pycnanthemum virginianum</i>	
Red oak*	<i>Quercus rubra</i>	
Yellow coneflower	<i>Ratibida pinnata</i>	
Pasture rose	<i>Rosa carolina</i>	
Black-eyed Susan	<i>Rudbeckia hirta</i>	
Sweet black-eyed Susan	<i>Rudbeckia subtomentosa</i>	
Wild petunia	<i>Ruellia humilis</i>	
Wool grass	<i>Scirpus cyperinus</i>	
Early figwort	<i>Scrophularia lanceolata</i>	
Prairie ragwort	<i>Senecio plattensis</i>	
Sleepy catchfly	<i>Silene antirrhina</i>	
Starry campion	<i>Silene stellata</i>	
Rosinweed	<i>Silphium integrifolium</i>	
Compass plant	<i>Silphium laciniatum</i>	
Cup plant	<i>Silphium perfoliatum</i>	
Prairie dock	<i>Silphium terebinthaceum</i>	
Common blue-eyed grass	<i>Sisyrinchium albidum</i>	
Grass-leaved goldenrod	<i>Solidago graminifolia</i>	
Viscid bushy goldenrod	<i>Solidago gymnospermoides</i>	
Early goldenrod	<i>Solidago juncea</i>	
Old field goldenrod	<i>Solidago nemoralis</i>	
Showy goldenrod	<i>Solidago speciosa</i>	
Prairie dropseed	<i>Sporobolus heterolepis</i>	
Porcupine grass*	<i>Stipa spartea</i>	
Sand fameflower*	<i>Talinum rugospermum</i>	
Goat's rue	<i>Tephrosia virginiana</i>	
Ohio spiderwort	<i>Tradescantia ohiensis</i>	
Blue vervain	<i>Verbena hastata</i>	
Hoary vervain	<i>Verbena stricta</i>	
Hairy white vervain	<i>Verbena urticifolia</i>	
Culver's root	<i>Veronicastrum virginicum</i>	
Birdsfoot violet	<i>Viola pedata</i>	
Kittentails	<i>Wulfenia bullii</i>	
Heart-leaved meadow parsnip	<i>Zizia aptera</i>	
Golden alexander	<i>Zizia aurea</i>	

*not in Dropseed N. planting
