

Scavenger Hunt

This is an observational scavenger hunt, DO NOT physically collect items!

The scavenger hunt takes place at Clear Creek Knolls.

Directions to Clear Creek Knolls: From the Visitor Center, drive 1.4 miles north on Lowden Rd. The entrance is on your right (east side), with a small parking lot. Do not block any entrances or gates. Visitors may walk on or off the trails.

Verizon Wireless and US Cellular usually have the best reception all the time.

Do not walk directly on any of the sandstone rock outcrops for they crumble easily.

1. Find one flying insect.

Describe what you found.

2. Find one crawling insect. Don't hurt them!

Describe what you found.

3. Find a plant that is taller than you.

Describe what you found.

4. Find three different grass types.

How did you do?

5. Find the cream wild indigo. This plant is unique to tallgrass and midgrass prairies. In the fall you may hear its seed pods rattle when you brush against it!

Did you find the plant or the seeds?

6. Find the Carolina rose. This plant is unique to tallgrass prairies and savannas.

Did you find it?

7. Spot three different birds.

Describe the birds you found.

8. Can you spot your favorite color in the landscape? Look closely!

Did you find your favorite color?

9. Find something fuzzy.

Describe what you found.

10. Find something smooth.

Describe what you found.

11. Find something rough.

Describe what you found.

12. Find a leaf that has been chewed by an animal. Not by you!

Did you find a chewed leaf?

13. Find an animal house (nest, burrow, etc). Careful not to disturb the resident!

Describe what you found.
